

# INCLUSIVE RESEARCH FACT SHEET

UNSW  
SYDNEY

DIU  
Disability Innovation  
Institute at UNSW

Inclusive research is when people with disability are part of the research team.

Inclusive research looks at issues that are important to us.

Inclusive research uses our life experience.

Working on research helps us build skills and speak up.

# Work together

With inclusive research we all work together.

Everyone in the team helps make decisions.

Everyone is listened to and respected.

People with disability are valued.

People with disability are paid for their work.

# Important things

People with disability must be included from the start.

Ask people what they need so that they can be included:

- Extra time.
- Support staff.
- Access.
- Travel needs.
- Information they can read.
- Training.

Meetings must include everyone:

- Not be too long.
- Have breaks.
- Time to get to know people.

# More information

Inclusive research is good for:

- People with disability.
- Disability organisations.
- Universities.
- Community.
