

# Raising awareness about neurodiversity using co-creation, digital storytelling, and public space media

We are seeking participants who identify as neurodiverse or are carers of a neurodiverse person to take part in a research study investigating how digital media in public space can raise public awareness of neurodiversity.

You will be attending **two face-to-face co-design workshops** to develop digital stories using text, image, or video.

Please contact Ian at [ian.mcarthur@unsw.edu.au](mailto:ian.mcarthur@unsw.edu.au) or get more information at [tinyurl.com/neurodiversityproject](https://tinyurl.com/neurodiversityproject)
